

SILICONE ROOF COATING PRODUCT GUIDE

Product	Description	Benefit
ACCESS SFR Fluids 400-6000 cps	OH-functional silicone polymer	Primary resin-solvent free systems
ACCESS SFR Fluids 14k-20k cps	OH-functional silicone polymer	Primary resin-solvent-based systems
ACCESS Organosilane MTO	Methyl tris (MEKO) silane	Conventional oxime crosslinker -neutral cure
ACCESS WET GRIP XL	Novel methoxy-functional adhesion promoter	Synergist with oxime crosslinkers

Product	Description	Benefit
ACCESS WET GRIP XLE	Novel ethoxy-functional adhesion promoter	Synergist in alkoxy cure formulas
ACCESS WET GRIP ES	Novel ethoxy-functional crosslinker	Oxime-free, methanol free
ACCESS WET GRIP ET	Proprietary adhesion additive	Adhesion promoter - alkoxy cure formulas
Organosilane A301	Aminopropyltriethoxysilane	Adhesion promoter
Organosilane A302	Aminopropyltriethoxysilane	Adhesion promoter
Organosilane AE301	N-(2-aminoethyl)-3-aminopropyl-trimethoxysilane	Adhesion promoter
Organosilane VMO	Vinyltrimethoxysilane	Coupling agent
Organosilane 202	Amino silane blend	Adhesion promoter, adds improved flexibility and hydrophobicity
ACCESS Organotin OT-325	Dimethyltin dineodecanoate CAS#: 68928-76-7	Liquid tin catalyst, used to accelerate cure in oxime coatings
